

COLOR CORRECTING & CONCEALING WITH THE COLOR WHEEL

QUICK COLOR CORRECTING GUIDE

	Commonly Neutralizes
● GREEN	Redness (e.g. broken capillaries, scarring, rosacea)
● YELLOW	Purple (bruises, some under-eye circles, some ruddiness in ivory skin tones)
● ORANGE	Under-eye circles, brown age spots, and some ruddiness in deeper skin tones
● SALMON	The blue and purple discolorations most common in under-eye circles. (Salmon is a perfect mix of orange and yellow.)
● WARM BROWN	Under-eye circles, brown age spots, and ruddiness in the deep skin tones
● LILAC	Sallowiness in skin
● PINK	Freckles and sunspots in very fair skin

Remember!

The tone and depth of your color correctors will vary from person to person. You should always refer to the color wheel as it is the basis for the infinite palette of colors you will encounter.
